

Calvert Equity Portfolio: A Shares

OBJECTIVE	STRATEGY	MORNINGSTAR CATEGORY: Large Growth	MORNINGSTAR BOX
The Fund seeks growth of capital through investment in stocks believed to offer opportunities for potential capital appreciation and which meet the Fund's investment criteria, including financial, sustainability and social responsibility factors.	The Fund invests primarily in the common stocks of U.S. large-cap companies, although it may have other investments, including foreign stocks and mid-cap stocks. The Fund defines large-cap companies as those whose market capitalization falls within the range of the S&P 500 Index. Sub-advisor Atlanta Capital looks for established companies with a history of steady earnings growth and selects companies based on its opinion that the company has the ability to sustain growth through high profitability and that the stock is favorably priced with respect to those growth expectations. The Fund seeks to invest in companies and other enterprises that demonstrate positive environmental, social and governance performance as they address corporate responsibility and sustainability challenges.	The Morningstar Style Box™ depicts a fund's current investment strategy. For equity funds, the vertical axis shows the market capitalization of the stocks owned; the horizontal axis shows investment style (value, blend, or growth).

Investment in mutual funds involves risk, including possible loss of principal invested. You could lose money on your investment in the Fund or the Fund could underperform because of the following risks: the market prices of stocks held by the Fund may fall; individual investments of the Fund may not perform as expected; and/or the Fund's portfolio management practices may not achieve the desired result. In addition, large-cap companies may be unable to respond quickly to new competitive challenges, such as changes in technology, and also may not be able to attain the high growth rate of successful smaller companies, especially during periods of economic expansion.

Holdings are as of the date shown above, may change at any time and are not recommendations to buy or sell any security.

Net assets include all share classes.

Calvert funds are available at NAV for RIAs and Wrap Programs. Not all funds available at all firms.
