Expense ratio is an estimated figure based on the expenses of the underlying investments and including the Pooled Income Fund expenses described in the current Gifting Booklet (Gifting Booklet). The Pooled Income Fund expense ratio is 1.29% for the Traditional share class. The underlying investment expenses are determined using investment allocation percentages as of the most recent quarter-end and the expense ratios of the underlying investments based on the most recently published financial statement. The expense ratios for each of the underlying investments are as follows: Current Income Pooled Income Fund - 0.84%, High Yield Pooled Income Fund - 0.70%, and Growth & Income Pooled Income Fund - 0.80%.

Each Pooled Income Fund is advised by Eaton Vance and invests in shares of investment companies registered with the U.S. Securities and Exchange Commission under the Investment Company Act of 1940 that are managed by Eaton Vance and its affiliates. Each Pooled Income Fund also may invest in registered investment companies that are managed by third-party managers unaffiliated with Eaton Vance that invest in Treasuries and/or Treasury Inflation Protected Securities and shares of State Street Institutional U.S. Government Money Market Fund.

For additional information regarding the underlying investment companies in which the Pooled Income Funds invest, Donors should read carefully the prospectuses or summary prospectuses which can be obtained from a financial advisor. The prospectuses contain important information including investment objectives, risks, fees and expenses. Prospective Donors should read the prospectuses carefully before contributing.

The Traditional I, II, III, and IV Pooled Income Funds are closed to investors. Client contributions prior to November 22, 2003 are invested in the Traditional I Pooled Income Funds. Client contributions between November 22, 2003 and August 14, 2009 are invested in the Traditional II Pooled Income Funds. Client contributions between August 15, 2009 and September 18, 2012 are invested in the Traditional III Pooled Income Funds. Client contributions between September 19, 2012 and July 5, 2015 are invested in the Traditional IV Pooled Income Funds. Client contributions between July 6, 2015 and March 25, 2018 are invested in the Traditional V Pooled Income Funds. Client contributions after March 26, 2018 are invested in the Traditional VI Pooled Income Funds.

Past performance is no guarantee of future results. Account value will fluctuate over time so that accounts may be worth more or less than their original value. Returns are historical and are calculated by determining the percentage change in NAV with all distributions reinvested. However, income is paid out by the Pooled Income Funds and consists of all dividend and interest income and, in certain circumstances, net short-term capital gains. Long-term capital gains, if any, will remain in each Pooled Income Fund. Income paid out by a Pooled Income Fund is taxable to income beneficiaries. **Performance is shown net of Pooled Income Fund expenses.** Each Pooled Income Fund's short-term performance may differ significantly from its historical long-term performance due to market conditions or other factors. Performance for periods less than one year is not annualized. For additional information regarding fees and expenses, please see the Gifting Booklet.
