

# 2024 Dividends Received Deduction and 163(j) Percentages for Corporate Shareholders

## DIVIDENDS RECEIVED DEDUCTION

A dividends received deduction (DRD) is available to corporate shareholders. Pursuant to the tax code, a corporation is entitled to a special deduction from gross income for dividends received from taxable domestic corporations. The amount of deduction is equal to 70% of the dividends received from corporations (provided that the recipient owns less than 20% of each of the paying corporations).

The special tax status of the dividends received by a mutual fund passes through to eligible shareholders. As a result, reported below is the portion of the ordinary income distribution paid which represents dividends received by the fund which may qualify for the dividends received deduction in 2024.

There is no assurance that a fund will achieve its investment objective. Funds are subject to market risk, which is the possibility that the market values of securities owned by the fund will decline and that the value of fund shares may therefore be less than what you paid for them. Market values can change daily due to economic and other events (e.g. natural disasters, health crises, terrorism, conflicts and social

unrest) that affect markets, countries, companies or governments. It is difficult to predict the timing, duration, and potential adverse effects (e.g. portfolio liquidity) of events. Accordingly, you can lose money investing in funds.
