Commodity Futures Trading Commission Registration. The Commodity Futures Trading Commission (“CFTC”) has adopted regulations that subject registered investment companies and advisers to regulation by the CFTC if a fund invests more than a prescribed level of its assets in certain CFTC-regulated instruments (including futures, certain options and swap agreements) or markets itself as providing investment exposure to such instruments. The adviser has claimed an exclusion from the definition of “commodity pool operator” under the Commodity Exchange Act with respect to its management of the Fund and the other funds it manages. Accordingly, neither the Fund nor the adviser is subject to CFTC regulation.

Fund shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

Management's Discussion of Fund Performance[†]

Economic and Market Conditions

For U.S. equity investors, the 12-month period ended December 31, 2023, was a roller-coaster ride, driven largely by shifting perceptions of whether the U.S. Federal Reserve (the Fed) could bring the world's largest economy in for a soft landing, and changing expectations of how long interest rates might remain high.

As the period opened in January 2023, U.S. equities began a rally that lasted through July. The initial tailwind was ChatGPT, an artificial intelligence (AI) application that led investors to perceive AI might become the next big innovation to drive the information technology (IT) sector. As a result, IT -- one of the worst-performing sectors in 2022 -- became a standout sector in 2023. Earlier recession fears that had weighed on stock prices receded as more investors came to view the U.S. economy as doing surprisingly well.

But from August through October 2023, the bond market halted the stock market's momentum. As investors feared the Fed might keep rates higher for longer than they had anticipated just a few months earlier, longer-term bond interest rates rose sharply. Given the potential for relatively attractive returns with lower risk than stocks, many investors shifted asset allocations from equities to bonds.

In the final two months of the period, however, U.S. equities made another U-turn, as investors again revised their expectations of what the Fed might do. Encouraged by cooling economic data and declining inflation, investors began to conclude the Fed was done raising interest rates -- and might begin lowering rates as early as March 2024.

In response, the U.S. stock market ended the period on a high note, with the S&P 500[®] Index, a broad measure of U.S. stocks; the blue-chip Dow Jones Industrial Average[®]; and the technology-laden Nasdaq Composite Index each rising more than 9% in November and more than 4% in December 2023. Unlike the equity rally during the first half of the period driven by a handful of large-cap technology-related stocks, the year-end rally extended across a wider range of market capitalizations, with the small-cap Russell 2000[®] Index keeping pace with its large-cap brethren in November, and significantly outperforming them in December.

For the period as a whole, U.S. equity performance was also strong. The S&P 500[®] Index returned 26.29%, the Dow Jones Industrial Average[®] returned 16.18%, the Nasdaq Composite Index returned 44.64%, and the Russell 2000[®] Index returned 16.93%.

Fund Performance

For the 12-month period ended December 31, 2023, Calvert VP SRI Mid Cap Portfolio (the Fund) returned 11.64% at net asset value (NAV), underperforming its benchmark, the Russell Midcap[®] Index (the Index), which returned 17.23%.

Security selections in the Fund, especially in the financials sector, detracted most from performance relative to the Index during the period. Selections in the health care, consumer staples, and consumer discretionary sectors also weighed on Index-relative returns.

The Fund's sector allocations contributed to Index-relative performance during the period. The Fund's overweight exposure to the information technology and industrials sectors, which were particularly strong performers, led contributors. Lack of exposure to the energy sector, one of the weakest performers within the Index during the period, also enhanced Index-relative returns.

In the financials sector, First Republic Bank, a San-Francisco-based regional commercial bank that focused on high-net-worth clients, was a leading detractor from returns relative to the Index during the period. Its share price fell after customers lost confidence in the bank and withdrew uninsured deposits. By period-end, the stock was sold from the Fund.

In the health care sector, Royalty Pharma Plc. (Royalty Pharma), which finances innovation in the biopharmaceuticals industry by purchasing royalties on prominent drugs, detracted from Index-relative returns during the period. Royalty Pharma's share price fell as the Biden administration sought to lower prices on certain drugs, leading to investor concerns that the company's profitability might decrease.

Dollar General Corp. (Dollar General) is a discount-priced retailer of food, personal, and household products in the consumer discretionary sector. Dollar General's share price dropped after the company reported lower-than-expected revenue and earnings due to tapering COVID stimulus funding and rising inflation, which decreased the purchasing power of the retailer's low-income customers. In response, Dollar General reduced its financial forecasts for 2023. By period-end, the stock was sold from the Fund.

In contrast, Core & Main, Inc. (Core & Main), a distributor of water, sewer, and fire protection products, was a leading contributor to returns relative to the Index during the period. Core & Main's share price rose steadily during the period with particular strength in the fourth quarter following better-than-expected third-quarter earnings.

Fair Isaac Corp. (Fair Isaac), a data analytics company specializing in credit scoring, contributed to Index-relative performance during the period. Fair Isaac's share price rose after it announced better-than-expected earnings during the period. The company was able to increase user prices because of its strong competitive position within its market.

Fund Expenses

Example

As a Fund shareholder, you incur ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of Fund investing and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (July 1, 2023 to December 31, 2023).

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the actual Fund expense ratio and an assumed rate of return of 5% per year (before expenses), which is not the actual Fund return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect expenses and charges which are, or may be imposed under the variable annuity contract or variable life insurance policy (variable contracts) (if applicable) or qualified pension or retirement plans (Qualified Plans) through which your investment in the Fund is made. Therefore, the second line of the table is useful in comparing ongoing costs associated with an investment in vehicles which fund benefits under variable contracts and Qualified Plans, and will not help you determine the relative total costs of investing in the Fund through variable contracts or Qualified Plans. In addition, if these expenses and charges imposed under the variable contracts or Qualified Plans were included, your costs would have been higher.

	Beginning Account Value (7/1/23)	Ending Account Value (12/31/23)	Expenses Paid During Period* (7/1/23 – 12/31/23)	Annualized Expense Ratio
Actual	\$1,000.00	\$1,032.80	\$5.07 **	0.99%
Hypothetical (5% return per year before expenses)	\$1,000.00	\$1,020.21	\$5.04 **	0.99%

* Expenses are equal to the Fund's annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period). The Example assumes that the \$1,000 was invested at the net asset value per share determined at the close of business on June 30, 2023. Expenses shown do not include insurance-related charges or direct expenses of Qualified Plans.

** Absent a waiver and/or reimbursement of expenses by affiliate(s), expenses would be higher.

Notes to Financial Statements

1 Significant Accounting Policies

Calvert VP SRI Mid Cap Portfolio (the Fund) is a diversified series of Calvert Variable Series, Inc. (the Corporation). The Corporation is a Maryland corporation registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The investment objective of the Fund is to seek to provide long-term capital appreciation by investing primarily in a portfolio of the equity securities of mid-sized companies that are undervalued but demonstrate a potential for growth.

Shares of the Fund are sold without sales charge to insurance companies for allocation to certain of their variable separate accounts and to qualified pension and retirement plans and other eligible investors.

The Fund applies the accounting and reporting guidance in the Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies* (ASC 946). Subsequent events, if any, through the date that the financial statements were issued have been evaluated in the preparation of the financial statements.

A Investment Valuation — Net asset value per share is determined every business day as of the close of the regular session of the New York Stock Exchange (generally 4:00 p.m. Eastern time). The Fund uses independent pricing services approved by the Board of Directors (the Board) to value its investments wherever possible. Investments for which market quotations are not available or deemed not reliable are fair valued in good faith by the Board's valuation designee.

U.S. generally accepted accounting principles (U.S. GAAP) establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

Level 1 - quoted prices in active markets for identical securities

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Valuation techniques used to value the Fund's investments by major category are as follows:

Equity Securities. Equity securities (including warrants and rights) listed on a U.S. securities exchange generally are valued at the last sale or closing price as reported by an independent pricing service on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. Equity securities listed on the NASDAQ National Market System are valued at the NASDAQ official closing price and are categorized as Level 1 in the hierarchy. Unlisted or listed securities for which closing sales prices or closing quotations are not available are valued at the mean between the latest available bid and ask prices and are categorized as Level 2 in the hierarchy.

Other Securities. Investments in management investment companies (including money market funds) that do not trade on an exchange are valued at the net asset value as of the close of each business day and are categorized as Level 1 in the hierarchy.

Fair Valuation. In connection with Rule 2a-5 of the 1940 Act, the Board has designated the Fund's investment adviser as its valuation designee. Investments for which valuations or market quotations are not readily available or are deemed unreliable are valued by the investment adviser, as valuation designee, at fair value using methods that most fairly reflect the security's "fair value", which is the amount that the Fund might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies or entities, quotations or relevant information obtained from broker/dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company's or entity's financial statements, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

The values assigned to fair value investments are based on available information and do not necessarily represent amounts that might ultimately be realized. Further, due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed, and the differences could be material.

Notes to Financial Statements — continued

The following table summarizes the market value of the Fund's holdings as of December 31, 2023, based on the inputs used to value them:

Asset Description	Level 1	Level 2	Level 3	Total
Common Stocks	\$25,629,899 ⁽¹⁾	\$ —	\$ —	\$25,629,899
Short-Term Investments	252,706	—	—	252,706
Total Investments	\$25,882,605	\$ —	\$ —	\$25,882,605

⁽¹⁾ The level classification by major category of investments is the same as the category presentation in the Schedule of Investments.

B Investment Transactions and Income — Investment transactions for financial statement purposes are accounted for on trade date. Realized gains and losses are recorded on an identified cost basis and may include proceeds from litigation. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities or, in the case of dividends on certain foreign securities, as soon as the Fund is informed of the ex-dividend date. Non-cash dividends are recorded at the fair value of the securities received. Distributions received that represent a return of capital are recorded as a reduction of cost of investments. Distributions received that represent a capital gain are recorded as a realized gain.

C Foreign Currency Transactions — The Fund's accounting records are maintained in U.S. dollars. For valuation of assets and liabilities on each date of net asset value determination, foreign denominations are converted into U.S. dollars using the current exchange rate. Security transactions, income and expenses are translated at the prevailing rate of exchange on the date of the event. Recognized gains or losses on investment transactions attributable to changes in foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

D Distributions to Shareholders — Distributions to shareholders are recorded by the Fund on ex-dividend date. The Fund distributes any net investment income and net realized capital gains at least annually. Both types of distributions are made in shares of the Fund unless an election is made on behalf of a separate account to receive some or all of the distributions in cash. Distributions are determined in accordance with income tax regulations, which may differ from U.S. GAAP; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under income tax regulations.

E Estimates — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

F Indemnifications — The Corporation's By-Laws provide for indemnification for Directors or officers of the Corporation and certain other parties, to the fullest extent permitted by Maryland law and the 1940 Act, provided certain conditions are met. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

G Federal Income Taxes — No provision for federal income or excise tax is required since the Fund intends to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable earnings.

Management has analyzed the Fund's tax positions taken for all open federal income tax years and has concluded that no provision for federal income tax is required in the Fund's financial statements. A Fund's federal tax return is subject to examination by the Internal Revenue Service for a period of three years from the date of filing.

2 Related Party Transactions

The investment advisory fee is earned by Calvert Research and Management (CRM), an indirect, wholly-owned subsidiary of Morgan Stanley, as compensation for investment advisory services rendered to the Fund. The investment advisory fee is computed at the annual rate of 0.65% of the Fund's average daily net assets and is payable monthly. For the year ended December 31, 2023, the investment advisory fee amounted to \$167,310.

The Fund may invest in a money market fund, the Institutional Class of the Morgan Stanley Institutional Liquidity Funds - Government Portfolio (the "Liquidity Fund"), an open-end management investment company managed by Morgan Stanley Investment Management Inc., a wholly-owned subsidiary of Morgan Stanley. The investment advisory fee paid by the Fund is reduced by an amount equal to its pro rata share of the advisory and administration fees paid by the Fund due to its investment in the Liquidity Fund. For the year ended December 31, 2023, the investment advisory fee paid was reduced by \$515 relating to the Fund's investment in the Liquidity Fund.

CRM has agreed to reimburse the Fund's operating expenses to the extent that total annual operating expenses (relating to ordinary operating expenses only and excluding expenses such as brokerage commissions, acquired fund fees and expenses of unaffiliated funds, borrowing costs, taxes or litigation expenses) exceed 0.99% of the Fund's average daily net assets. The expense reimbursement agreement with CRM may be changed or terminated after April 30, 2024. For the year ended December 31, 2023, CRM waived or reimbursed expenses of \$10,917.

Notes to Financial Statements — continued

The administrative fee is earned by CRM as compensation for administrative services rendered to the Fund. The fee is computed at an annual rate of 0.12% of the Fund's average daily net assets and is payable monthly. For the year ended December 31, 2023, CRM was paid administrative fees of \$30,888.

Eaton Vance Management (EVM), an affiliate of CRM, provides sub-transfer agency and related services to the Fund pursuant to a Sub-Transfer Agency Support Services Agreement. For the year ended December 31, 2023, sub-transfer agency fees and expenses incurred to EVM amounted to \$353 and are included in transfer agency fees and expenses on the Statement of Operations.

Each Director of the Fund who is not an employee of CRM or its affiliates receives an annual fee of \$214,000 (\$225,000 effective January 1, 2024), an annual Committee fee ranging from \$8,500 to \$16,500 depending on the Committee, and may receive a fee of \$10,000 for special meetings. The Board chair receives an additional \$40,000 annual fee, Committee chairs receive an additional \$15,000 annual fee and the special equities liaison receives an additional \$2,500 annual fee. Eligible Directors may participate in a Deferred Compensation Plan (the Plan). Amounts deferred under the Plan are treated as though equal dollar amounts had been invested in shares of the Fund or other Calvert funds selected by the Directors. The Fund purchases shares of the funds selected equal to the dollar amounts deferred under the Plan, resulting in an asset equal to the deferred compensation liability. Obligations of the Plan are paid solely from the Fund's assets. Directors' fees are allocated to each of the Calvert funds served. Salaries and fees of officers and Directors of the Fund who are employees of CRM or its affiliates are paid by CRM.

3 Shareholder Servicing Plan

The Corporation, on behalf of the Fund, has adopted a Shareholder Servicing Plan (Servicing Plan), which permits the Fund to enter into shareholder servicing agreements with intermediaries that maintain accounts in the Fund for the benefit of shareholders. These services may include, but are not limited to, processing purchase and redemption requests, processing dividend payments, and providing account information to shareholders. Under the Servicing Plan, the Fund may make payments at an annual rate of up to 0.11% of its average daily net assets. For the year ended December 31, 2023, expenses incurred under the Servicing Plan amounted to \$14,070 and are included in transfer agency fees and expenses on the Statement of Operations.

4 Investment Activity

During the year ended December 31, 2023, the cost of purchases and proceeds from sales of investments, other than short-term securities, were \$7,795,499 and \$10,766,665, respectively.

5 Distributions to Shareholders and Income Tax Information

The tax character of distributions declared for the years ended December 31, 2023 and December 31, 2022 was as follows:

	Year Ended December 31,	
	2023	2022
Ordinary income	\$48,109	\$ 845,481
Long-term capital gains	\$ —	\$5,070,368

As of December 31, 2023, the components of distributable earnings (accumulated loss) on a tax basis were as follows:

Undistributed ordinary income	\$ 52,252
Undistributed long-term capital gains	244,077
Net unrealized appreciation	3,603,918
Distributable earnings	\$3,900,247

Notes to Financial Statements — continued

The cost and unrealized appreciation (depreciation) of investments of the Fund at December 31, 2023, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$22,278,688
Gross unrealized appreciation	\$ 4,610,936
Gross unrealized depreciation	(1,007,018)
Net unrealized appreciation	\$ 3,603,918

6 Securities Lending

To generate additional income, the Fund may lend its securities pursuant to a securities lending agency agreement with State Street Bank and Trust Company (SSBT), the securities lending agent. Security loans are subject to termination by the Fund at any time and, therefore, are not considered illiquid investments. The Fund requires that the loan be continuously collateralized by either cash or securities in an amount at least equal to the market value of the securities on loan. The market value of securities loaned is determined daily and any additional required collateral is delivered to the Fund on the next business day. Cash collateral is generally invested in a money market fund registered under the 1940 Act that is managed by an affiliate of SSBT. Any gain or loss in the market price of the loaned securities that might occur and any interest earned or dividends declared during the term of the loan would accrue to the account of the Fund. Income earned on the investment of collateral, net of broker rebates and other expenses incurred by the securities lending agent, is split between the Fund and the securities lending agent based on agreed upon contractual terms. Non-cash collateral, if any, is held by the lending agent on behalf of the Fund and cannot be sold or re-pledged by the Fund; accordingly, such collateral is not reflected in the Statement of Assets and Liabilities.

The risks associated with lending portfolio securities include, but are not limited to, possible delays in receiving additional collateral or in the recovery of the loaned securities, possible loss of rights to the collateral should the borrower fail financially, as well as risk of loss in the value of the collateral or the value of the investments made with the collateral. The securities lending agent shall indemnify the Fund in the case of default of any securities borrower.

The Fund did not have any securities on loan at December 31, 2023.

7 Line of Credit

The Fund participates with other portfolios and funds managed by EVM and its affiliates, including CRM, in a \$650 million unsecured revolving line of credit agreement with a group of banks, which is in effect through October 22, 2024. In connection with the renewal of the agreement on October 24, 2023, the borrowing limit was decreased from \$725 million. Borrowings are made by the Fund solely for temporary purposes related to redemptions and other short-term cash needs. Interest is charged to the Fund based on its borrowings at an amount above either the Secured Overnight Financing Rate (SOFR) or Federal Funds rate. In addition, a fee computed at an annual rate of 0.15% on the daily unused portion of the line of credit is allocated among the participating portfolios and funds at the end of each quarter. In connection with the renewal of the agreement in October 2023, an arrangement fee of \$150,000 was incurred that was allocated to the participating portfolios and funds. Because the line of credit is not available exclusively to the Fund, it may be unable to borrow some or all of its requested amounts at any particular time.

The Fund had no borrowings outstanding pursuant to its line of credit at December 31, 2023. The Fund did not have any significant borrowings or allocated fees during the year ended December 31, 2023.

8 Affiliated Investments

At December 31, 2023, the value of the Fund's investment in funds that may be deemed to be affiliated was \$252,706, which represents 1.0% of the Fund's net assets. Transactions in such investments by the Fund for the year ended December 31, 2023 were as follows:

Name	Value, beginning of period	Purchases	Sales proceeds	Net realized gain (loss)	Change in unrealized appreciation (depreciation)	Value, end of period	Dividend income	Shares, end of period
Short-Term Investments								
Liquidity Fund	\$284,995	\$5,798,945	\$(5,831,234)	\$ —	\$ —	\$252,706	\$16,937	252,706

Report of Independent Registered Public Accounting Firm

To the Board of Directors of Calvert Variable Series, Inc. and Shareholders of Calvert VP SRI Mid Cap Portfolio:

Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statement of assets and liabilities of Calvert VP SRI Mid Cap Portfolio (the "Fund") (one of the funds constituting Calvert Variable Series, Inc.), including the schedule of investments, as of December 31, 2023, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the three years in the period then ended, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2023, and the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. The financial highlights for the years ended December 31, 2020 and 2019 were audited by other auditors whose report, dated February 18, 2021, expressed an unqualified opinion on those financial highlights.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

Federal Tax Information (Unaudited)

As required by the Internal Revenue Code and/or regulations, shareholders must be notified regarding the status of qualified dividend income for individuals, the dividends received deduction for corporations and capital gains dividends.

Qualified Dividend Income. For the fiscal year ended December 31, 2023, the Fund designates approximately \$207,399, or up to the maximum amount of such dividends allowable pursuant to the Internal Revenue Code, as qualified dividend income eligible for the reduced tax rate of 15%.

Dividends Received Deduction. Corporate shareholders are generally entitled to take the dividends received deduction on the portion of the Fund's dividend distribution that qualifies under tax law. For the Fund's fiscal 2023 ordinary income dividends, 100% qualifies for the corporate dividends received deduction.

Capital Gains Dividends. The Fund hereby designates as a capital gain dividend with respect to the taxable year ended December 31, 2023, \$244,077 or, if subsequently determined to be different, the net capital gain of such year.

Management and Organization

Fund Management. The Directors of Calvert Variable Series, Inc. (the Corporation) are responsible for the overall management and supervision of the affairs of the Corporation. The Board members and officers of the Corporation are listed below. Except as indicated, each individual has held the office shown or other offices in the same company for the last five years. Board members hold indefinite terms of office. Each Board member holds office until his or her successor is elected and qualified, or until his or her earlier death, resignation, retirement, removal or disqualification. Under the terms of the Fund's current Board member retirement policy, an Independent Board member must retire at the end of the calendar year in which he or she turns 75. However, if such retirement would cause the Fund to be out of compliance with Section 16 of the 1940 Act or any other regulations or guidance of the SEC, then such retirement will not become effective until such time as action has been taken for the Fund to be in compliance therewith. The "noninterested Directors" consist of those Directors who are not "interested persons" of the Corporation, as that term is defined under the 1940 Act. The business address of each Board member and the Chief Compliance Officer is 2050 M Street NW, Washington, DC 20036 and the business address of the Secretary, Vice President and Chief Legal Officer and the Treasurer is Two International Place, Boston, Massachusetts 02110. As used below, "CRM" refers to Calvert Research and Management and "Eaton Vance" refers to Eaton Vance Management. Each Director oversees 46 funds in the Calvert fund complex. Each of Eaton Vance and CRM are indirect, wholly owned subsidiaries of Morgan Stanley. Each officer affiliated with CRM may hold a position with other CRM affiliates that is comparable to his or her position with CRM listed below.

IMPORTANT NOTICES

Delivery of Shareholder Documents. The Securities and Exchange Commission (SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called “householding” and it helps eliminate duplicate mailings to shareholders. *Calvert funds, or your financial intermediary, may household the mailing of your documents indefinitely unless you instruct Calvert funds, or your financial intermediary, otherwise.* If you would prefer that your Calvert fund documents not be househanded, please contact Calvert funds at 1-800-368-2745, or contact your financial intermediary. Your instructions that householding not apply to delivery of your Calvert fund documents will typically be effective within 30 days of receipt by Calvert funds or your financial intermediary.

Portfolio Holdings. Each Calvert fund files a schedule of portfolio holdings on Part F to Form N-PORT with the SEC. Certain information filed on Form N-PORT may be viewed on the Calvert website at www.calvert.com, by calling Calvert at 1-800-368-2745 or in the EDGAR database on the SEC’s website at www.sec.gov.

Proxy Voting. The Proxy Voting Guidelines that each Calvert fund uses to determine how to vote proxies relating to portfolio securities is provided as an Appendix to the fund’s Statement of Additional Information. The Statement of Additional Information can be obtained free of charge by calling the Calvert funds at 1-800-368-2745, by visiting the Calvert funds’ website at www.calvert.com or visiting the SEC’s website at www.sec.gov. Information regarding how a Calvert fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available by calling Calvert funds, by visiting the Calvert funds’ website at www.calvert.com or by visiting the SEC’s website at www.sec.gov.

Tailored Shareholder Reports. Effective January 24, 2023, the SEC adopted rule and form amendments to require open-end mutual funds and ETFs to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information. Other information, including financial statements, will no longer appear in a streamlined shareholder report but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. At this time, management is evaluating the impact of these amendments on the shareholder reports for the Calvert Funds.
