Annual Report  
December 31, 2023

**Commodity Futures Trading Commission Registration.** The Commodity Futures Trading Commission (“CFTC”) has adopted regulations that subject registered investment companies and advisers to regulation by the CFTC if a fund invests more than a prescribed level of its assets in certain CFTC-regulated instruments (including futures, certain options and swap agreements) or markets itself as providing investment exposure to such instruments. The adviser has claimed an exclusion from the definition of “commodity pool operator” under the Commodity Exchange Act with respect to its management of the Fund and the other funds it manages. Accordingly, neither the Fund nor the adviser is subject to CFTC regulation.

**Fund shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.**

**This report must be preceded or accompanied by a current summary prospectus or prospectus. Before investing, investors should consider carefully the investment objective, risks, and charges and expenses of a mutual fund. This and other important information is contained in the summary prospectus and prospectus, which can be obtained from a financial intermediary. Prospective investors should read the prospectus carefully before investing. For further information, please call 1-800-368-2745.**

### Management's Discussion of Fund Performance<sup>†</sup>

---

#### Economic and Market Conditions

For fixed-income investors, the dominant events during the 12-month period ended December 31, 2023, were four interest rate hikes by the U.S. Federal Reserve (the Fed), followed by an end-of-year halt to rising rates, and the prospect of rate cuts as early as March 2024.

While the Fed's campaign to tamp down inflation led to negative performance for government bonds until later in the period, corporate bond returns were positive throughout the calendar year buoyed by the very factors that were fueling inflation: low unemployment, strong job creation, and robust consumer spending.

By the summer of 2023, many economists and market observers came around to the view that the Fed might be able to accomplish what had seldom, if ever, been done before: Raise interest rates significantly to lower inflation and still bring the U.S. economy in for a soft landing without a recession.

However, one persistent cloud over fixed-income markets during much of the period was a fear that even after the Fed finished raising the federal funds rate, America's central bank might leave rates elevated for an extended time. From August to October 2023, longer-term interest rates rose dramatically as investor expectations of how high rates might go -- and how long rates might stay there -- seemed to get higher and longer.

This fear was largely dispelled during the last two months of the period when data showed inflation falling faster than anticipated. In December 2023, the Fed announced that its current round of rate hikes were done and, subsequently, there could be as many as three rate cuts in 2024. This sharp turnaround led to a strong rebound in bond markets that produced substantial positive returns in all major fixed-income markets during the period.

U.S. Treasuries -- one of the worst-performing major fixed-income asset classes during the Fed's monetary-tightening cycle -- finished in positive territory, with the Bloomberg U.S. Treasury Index returning 4.05% for the full period.

Meanwhile, the Bloomberg U.S. Corporate Bond Index, returned 8.52% during the period.

Elsewhere, high yield bonds were the standout performer among major fixed-income asset classes during the period, with the Bloomberg U.S. Corporate High Yield Index returning 13.44%. With a strong U.S. economy helping keep bond defaults low and a recession looking increasingly remote, investors gravitated toward riskier investments with greater yields.

Asset-backed securities benefited from strong consumer balance sheets as well as steady consumer spending during the period, with the Bloomberg U.S. Asset-Backed Securities Index returning 5.54%.

Mortgage-backed securities (MBS), which had posted negative returns during much of the period, underwent a resurgence in the final months.

MBS performance had weakened during the period as the Fed gradually reduced its MBS holdings as part of its quantitative tightening program. In addition, several regional banks -- that had been significant buyers of MBS -- liquidated their assets following the banking crisis of March 2023. However, boosted by news of the end of rate hikes -- and possible rate cuts to come -- the Bloomberg U.S. Mortgage-Backed Securities Index returned 5.05% during the period.

#### Fund Performance

For the 12-month period ended December 31, 2023, Calvert VP Investment Grade Bond Index Portfolio (the Fund) returned 5.47% for Class I shares at net asset value (NAV). By comparison, its benchmark, the Bloomberg U.S. Aggregate Bond Index (the Index), returned 5.53% during the period.

The Index is unmanaged, and returns do not reflect fees or operating expenses.

The Fund seeks to track the total return of the securities composing the Index. With more than 12,000 securities within the Index, however, full replication is not feasible. The Fund, therefore, uses a representative sampling method in seeking to track the total return of the securities in the Index, creating a portfolio of securities with financial characteristics similar to the Index, including duration, sector allocation, and credit quality.

Bond returns varied throughout 2023, but ended the calendar year strong as U.S. Treasury yields declined due to improving inflation data and market expectations that the U.S. Federal Reserve was done raising interest rates intended to slow business and consumer demand.

Longer-duration securities outperformed shorter-duration securities during the period due to strong performance in the fourth quarter. Corporate bonds outperformed other securities in the Index as well, with credit spreads tightening in 2023 as fears of an economic recession diminished during the period. The Fund's overweight exposure to corporate bonds contributed to returns versus the Index during the period.

*Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value (NAV) or offering price (as applicable) with all distributions reinvested. Furthermore, returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the redemption of Fund shares. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Performance for periods less than or equal to one year is cumulative. Performance is for the stated time period only; due to market volatility, current Fund performance may be lower or higher than the quoted return.*

<sup>†</sup> The views expressed in this report are those of the portfolio manager(s) and are current only through the date stated at the top of this page. These views are subject to change at any time based upon market or other conditions, and Calvert and the Fund(s) disclaim any responsibility to update such views. These views may not be relied upon as investment advice and, because investment decisions are based on many factors, may not be relied upon as an indication of trading intent on behalf of any Calvert fund. This commentary may contain statements that are not historical facts, referred to as “forward-looking statements.” The Fund’s actual future results may differ significantly from those stated in any forward-looking statement, depending on factors such as changes in securities or financial markets or general economic conditions, the volume of sales and purchases of Fund shares, the continuation of investment advisory, administrative and service contracts, and other risks discussed from time to time in the Fund’s filings with the Securities and Exchange Commission.

- <sup>1</sup> Bloomberg U.S. Aggregate Bond Index is an unmanaged index of domestic investment-grade bonds, including corporate, government and mortgage-backed securities. Unless otherwise stated, index returns do not reflect the effect of any applicable sales charges, commissions, expenses, taxes or leverage, as applicable. It is not possible to invest directly in an index.
- <sup>2</sup> There is no sales charge. Insurance-related charges are not included in the calculation of returns. If such charges were reflected, the returns would be lower. Please refer to the report for your insurance contract for performance data reflecting insurance-related charges.

Performance prior to the inception date of a class may be linked to the performance of an older class of the Fund. This linked performance is adjusted for any applicable sales charge, but is not adjusted for class expense differences. If adjusted for such differences, the performance would be different. The performance of Class F is linked to Class I. Performance presented in the Financial Highlights included in the financial statements is not linked.

Calvert Research and Management became the investment adviser to the Fund on December 31, 2016. Performance reflected prior to such date is that of the Fund’s former investment adviser.

- <sup>3</sup> Source: Fund prospectus. Net expense ratios reflect a contractual expense reimbursement that continues through 4/30/24. The expense ratios for the current reporting period can be found in the Financial Highlights section of this report. Performance reflects expenses waived and/or reimbursed, if applicable. Without such waivers and/or reimbursements, performance would have been lower.

### Additional Information

Bloomberg U.S. Treasury Index measures the performance of U.S. Treasuries with a maturity of one year or more. Bloomberg U.S. Corporate Bond Index measures the performance of investment-grade U.S. corporate securities with a maturity of one year or more. Bloomberg U.S. Corporate High Yield Index measures USD-denominated, non-investment grade corporate securities. Bloomberg U.S. Asset-Backed Securities Index tracks the performance of U.S. dollar denominated investment grade, fixed rate asset-backed securities publicly issued in the U.S. domestic market. Bloomberg U.S. Mortgage-Backed Securities Index measures agency mortgage-backed pass-through securities issued by Ginnie Mae (GNMA), Fannie Mae (FNMA), and Freddie Mac (FHLMC).

Duration is a measure of the expected change in price of a bond — in percentage terms — given a one percent change in interest rates, all else being constant. Securities with lower durations tend to be less sensitive to interest rate changes.

### Fund Expenses

#### Example

As a Fund shareholder, you incur ongoing costs, including management fees; distribution and/or service fees; and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of Fund investing and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (July 1, 2023 to December 31, 2023).

#### Actual Expenses

The first section of the table below provides information about actual account values and actual expenses. You may use the information in this section, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The second section of the table below provides information about hypothetical account values and hypothetical expenses based on the actual Fund expense ratio and an assumed rate of return of 5% per year (before expenses), which is not the actual Fund return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect expenses and charges which are, or may be imposed under the variable annuity contract or variable life insurance policy (variable contracts) (if applicable) or qualified pension or retirement plans (Qualified Plans) through which your investment in the Fund is made. Therefore, the second section of the table is useful in comparing ongoing costs associated with an investment in vehicles which fund benefits under variable contracts and Qualified Plans, and will not help you determine the relative total costs of investing in the Fund through variable contracts or Qualified Plans. In addition, if these expenses and charges imposed under the variable contracts or Qualified Plans were included, your costs would have been higher.

	Beginning Account Value (7/1/23)	Ending Account Value (12/31/23)	Expenses Paid During Period* (7/1/23 – 12/31/23)	Annualized Expense Ratio
<b>Actual</b>				
Class I	\$1,000.00	\$1,031.10	\$1.64 **	0.32%
Class F	\$1,000.00	\$1,029.90	\$2.92 **	0.57%
<b>Hypothetical</b>				
(5% return per year before expenses)				
Class I	\$1,000.00	\$1,023.59	\$1.63 **	0.32%
Class F	\$1,000.00	\$1,022.33	\$2.91 **	0.57%

\* Expenses are equal to the Fund's annualized expense ratio for the indicated Class, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period). The Example assumes that the \$1,000 was invested at the net asset value per share determined at the close of business on June 30, 2023. Expenses shown do not include insurance-related charges or direct expenses of Qualified Plans.

\*\* Absent a waiver and/or reimbursement of expenses by affiliate(s), expenses would be higher.

The percentage shown for each investment category in the Schedule of Investments is based on net assets.

<sup>(1)</sup> All or a portion of this security was on loan at December 31, 2023. The aggregate market value of securities on loan at December 31, 2023 was \$2,761,959.

<sup>(2)</sup> Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities may be sold in certain transactions in reliance on an exemption from registration (normally to qualified institutional buyers). At December 31, 2023, the aggregate value of these securities is \$1,287,952 or 1.1% of the Fund's net assets.

<sup>(3)</sup> Security converts to variable rate after the indicated fixed-rate coupon period.

<sup>(4)</sup> Represents an investment in an issuer that is deemed to be an affiliate (see Note 8).

<sup>(5)</sup> Adjustable rate mortgage security whose interest rate generally adjusts monthly based on a weighted average of interest rates on the underlying mortgages. The coupon rate may not reflect the applicable index value as interest rates on the underlying mortgages may adjust on various dates and at various intervals and may be subject to lifetime ceilings and lifetime floors and lookback periods. Rate shown is the coupon rate at December 31, 2023.

<sup>(6)</sup> May be deemed to be an affiliated investment company. The rate shown is the annualized seven-day yield as of December 31, 2023.

<sup>(7)</sup> Represents investment of cash collateral received in connection with securities lending.

#### 1 Significant Accounting Policies

Calvert VP Investment Grade Bond Index Portfolio (the Fund) is a diversified series of Calvert Variable Products, Inc. (the Corporation). The Corporation is a Maryland corporation registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company. The investment objective of the Fund is to seek investment results that correspond to the total return performance of the bond market, as represented by the Bloomberg U.S. Aggregate Bond Index.

Shares of the Fund are sold without sales charge to insurance companies for allocation to certain of their variable separate accounts and to qualified pension and retirement plans and other eligible investors. The Fund offers Class I and Class F shares. Among other things, each class has different: (a) dividend rates due to differences in Distribution Plan expenses and other class-specific expenses; (b) exchange privileges; and (c) class-specific voting rights.

The Fund applies the accounting and reporting guidance in the Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, *Financial Services – Investment Companies* (ASC 946). Subsequent events, if any, through the date that the financial statements were issued have been evaluated in the preparation of the financial statements.

**A Investment Valuation** — Net asset value per share is determined every business day as of the close of the regular session of the New York Stock Exchange (generally 4:00 p.m. Eastern time). The Fund uses independent pricing services approved by the Board of Directors (the Board) to value its investments wherever possible. Investments for which market quotations are not available or deemed not reliable are fair valued in good faith by the Board's valuation designee.

U.S. generally accepted accounting principles (U.S. GAAP) establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

Level 1 - quoted prices in active markets for identical securities

Level 2 - other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 - significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Valuation techniques used to value the Fund's investments by major category are as follows:

**Debt Securities.** Debt securities are generally valued based on valuations provided by third party pricing services, as derived from such services' pricing models. Inputs to the models may include, but are not limited to, reported trades, executable bid and ask prices, broker/dealer quotations, prices or yields of securities with similar characteristics, interest rates, anticipated prepayments, benchmark curves or information pertaining to the issuer, as well as industry and economic events. Accordingly, debt securities are generally categorized as Level 2 in the hierarchy. Short-term debt securities with a remaining maturity at time of purchase of more than sixty days are valued based on valuations provided by a third party pricing service. Such securities are generally categorized as Level 2 in the hierarchy. Short-term debt securities of sufficient credit quality purchased with remaining maturities of sixty days or less for which a valuation from a third party pricing service is not readily available may be valued at amortized cost, which approximates fair value, and are categorized as Level 2 in the hierarchy.

**Other Securities.** Investments in management investment companies (including money market funds) that do not trade on an exchange are valued at the net asset value as of the close of each business day and are categorized as Level 1 in the hierarchy.

**Fair Valuation.** In connection with Rule 2a-5 of the 1940 Act, the Board has designated the Fund's investment adviser as its valuation designee. Investments for which valuations or market quotations are not readily available or are deemed unreliable are valued by the investment adviser, as valuation designee, at fair value using methods that most fairly reflect the security's "fair value", which is the amount that the Fund might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies or entities, quotations or relevant information obtained from broker/dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company's or entity's financial statements, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

The values assigned to fair value investments are based on available information and do not necessarily represent amounts that might ultimately be realized. Further, due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed, and the differences could be material.

<b>Total Investments</b>	<b>\$2,612,480</b>	<b>\$116,972,595</b>	<b>\$ —</b>	<b>\$119,585,075</b>

**B Investment Transactions and Income** — Investment transactions for financial statement purposes are accounted for on trade date. Realized gains and losses are recorded on an identified cost basis and may include proceeds from litigation. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. Interest income, which includes amortization of premium and accretion of discount on debt securities, is accrued as earned.

**C Share Class Accounting** — Realized and unrealized gains and losses and net investment income and losses, other than class-specific expenses, are allocated daily to each class of shares based upon the relative net assets of each class to the total net assets of the Fund. Expenses arising in connection with a specific class are charged directly to that class.

**D Distributions to Shareholders** — Distributions to shareholders are recorded by the Fund on ex-dividend date. The Fund distributes any net investment income and net realized capital gains at least annually. Both types of distributions are made in shares of the Fund unless an election is made on behalf of a separate account to receive some or all of the distributions in cash. Distributions are declared separately for each class of shares. Distributions are determined in accordance with income tax regulations, which may differ from U.S. GAAP; accordingly, periodic reclassifications are made within the Fund's capital accounts to reflect income and gains available for distribution under income tax regulations.

**E Estimates** — The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

**F Indemnifications** — The Corporation's By-Laws provide for indemnification for Directors or officers of the Corporation and certain other parties, to the fullest extent permitted by Maryland law and the 1940 Act, provided certain conditions are met. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

**G Federal Income Taxes** — No provision for federal income or excise tax is required since the Fund intends to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable earnings.

Management has analyzed the Fund's tax positions taken for all open federal income tax years and has concluded that no provision for federal income tax is required in the Fund's financial statements. A Fund's federal tax return is subject to examination by the Internal Revenue Service for a period of three years from the date of filing.

## 2 Related Party Transactions

The investment advisory fee is earned by Calvert Research and Management (CRM), an indirect, wholly-owned subsidiary of Morgan Stanley, as compensation for investment advisory services rendered to the Fund. The investment advisory fee is computed at the annual rate of 0.20% of the Fund's average daily net assets and is payable monthly. For the year ended December 31, 2023, the investment advisory fee amounted to \$233,932.

Pursuant to an investment sub-advisory agreement, CRM has delegated the investment management of the Fund to Ameritas Investment Partners, Inc. (AIP). CRM pays AIP a portion of its investment advisory fee for sub-advisory services provided to the Fund.

### Notes to Financial Statements — continued

The Fund may invest in a money market fund, the Institutional Class of the Morgan Stanley Institutional Liquidity Funds - Government Portfolio (the "Liquidity Fund"), an open-end management investment company managed by Morgan Stanley Investment Management Inc., a wholly-owned subsidiary of Morgan Stanley. The investment advisory fee paid by the Fund is reduced by an amount equal to its pro rata share of the advisory and administration fees paid by the Fund due to its investment in the Liquidity Fund. For the year ended December 31, 2023, the investment advisory fee paid was reduced by \$1,781 relating to the Fund's investment in the Liquidity Fund.

CRM has agreed to reimburse the Fund's operating expenses to the extent that total annual operating expenses (relating to ordinary operating expenses only and excluding expenses such as brokerage commissions, acquired fund fees and expenses of unaffiliated funds, borrowing costs, taxes or litigation expenses) exceed 0.32% for Class I and 0.57% for Class F of such class's average daily net assets. The expense reimbursement agreement with CRM may be changed or terminated after April 30, 2024. For the year ended December 31, 2023, CRM waived or reimbursed expenses of \$203,797.

The administrative fee is earned by CRM as compensation for administrative services rendered to the Fund. The fee is computed at an annual rate of 0.12% of the Fund's average daily net assets attributable to Class I and Class F and is payable monthly. For the year ended December 31, 2023, CRM was paid administrative fees of \$140,359.

The Fund has in effect a distribution plan for Class F shares (Class F Plan) pursuant to Rule 12b-1 under the 1940 Act. Pursuant to the Class F Plan, the Fund pays Eaton Vance Distributors, Inc. (EVD), an affiliate of CRM and the Fund's principal underwriter, a distribution fee of 0.25% per annum of its average daily net assets attributable to Class F shares for the sale and distribution of Class F shares. Distribution fees paid or accrued for the year ended December 31, 2023 amounted to \$13,167 for Class F shares.

Eaton Vance Management (EVM), an affiliate of CRM, provides sub-transfer agency and related services to the Fund pursuant to a Sub-Transfer Agency Support Services Agreement. For the year ended December 31, 2023, sub-transfer agency fees and expenses incurred to EVM amounted to \$815 and are included in transfer agency fees and expenses on the Statement of Operations.

Each Director of the Fund who is not an employee of CRM or its affiliates receives an annual fee of \$214,000 (\$225,000 effective January 1, 2024), an annual Committee fee ranging from \$8,500 to \$16,500 depending on the Committee, and may receive a fee of \$10,000 for special meetings. The Board chair receives an additional \$40,000 annual fee, Committee chairs receive an additional \$15,000 annual fee and the special equities liaison receives an additional \$2,500 annual fee. Eligible Directors may participate in a Deferred Compensation Plan (the Plan). Amounts deferred under the Plan are treated as though equal dollar amounts had been invested in shares of the Fund or other Calvert funds selected by the Directors. The Fund purchases shares of the funds selected equal to the dollar amounts deferred under the Plan, resulting in an asset equal to the deferred compensation liability. Obligations of the Plan are paid solely from the Fund's assets. Directors' fees are allocated to each of the Calvert funds served. Salaries and fees of officers and Directors of the Fund who are employees of CRM or its affiliates are paid by CRM.

### 3 Shareholder Servicing Plan

The Corporation, on behalf of the Fund, has adopted a Shareholder Servicing Plan (Servicing Plan), which permits the Fund to enter into shareholder servicing agreements with intermediaries that maintain accounts in the Fund for the benefit of shareholders. These services may include, but are not limited to, processing purchase and redemption requests, processing dividend payments, and providing account information to shareholders. Under the Servicing Plan, the Fund may make payments at an annual rate of up to 0.11% of its average daily net assets. For the year ended December 31, 2023, expenses incurred under the Servicing Plan amounted to \$94,557, of which \$68,662 were payable to an affiliate of AIP, and are included in transfer agency fees and expenses on the Statement of Operations. Included in accrued expenses at December 31, 2023 are amounts payable to an affiliate of AIP under the Servicing Plan of \$16,685.

### 4 Investment Activity

During the year ended December 31, 2023, the cost of purchases and proceeds from sales of investments, other than U.S. government and agency securities and short-term securities and including maturities and paydowns, were \$1,294,713 and \$1,209,299, respectively. Purchases and sales of U.S. government and agency securities, including maturities and paydowns, were \$11,232,362 and \$11,263,423, respectively.

### 5 Distributions to Shareholders and Income Tax Information

The tax character of distributions declared for the years ended December 31, 2023 and December 31, 2022 was as follows:

	Year Ended December 31,	
	2023	2022
Ordinary income	\$3,193,980	\$3,352,918

### Notes to Financial Statements — continued

As of December 31, 2023, the components of distributable earnings (accumulated loss) on a tax basis were as follows:

Undistributed ordinary income	\$ 3,221,200
Deferred capital losses	(1,826,432)
Net unrealized depreciation	(11,557,848)
<b>Accumulated loss</b>	<b>\$(10,163,080)</b>

At December 31, 2023, the Fund, for federal income tax purposes, had deferred capital losses of \$1,826,432 which would reduce the Fund's taxable income arising from future net realized gains on investment transactions, if any, to the extent permitted by the Internal Revenue Code, and thus would reduce the amount of distributions to shareholders, which would otherwise be necessary to relieve the Fund of any liability for federal income or excise tax. The deferred capital losses are treated as arising on the first day of the Fund's next taxable year, can be carried forward for an unlimited period, and retain the same short-term or long-term character as when originally deferred. Of the deferred capital losses at December 31, 2023, \$746,750 are short-term and \$1,079,682 are long-term.

The cost and unrealized appreciation (depreciation) of investments of the Fund at December 31, 2023, as determined on a federal income tax basis, were as follows:

<b>Aggregate cost</b>	<b>\$131,142,923</b>
Gross unrealized appreciation	\$ 351,523
Gross unrealized depreciation	(11,909,371)
<b>Net unrealized depreciation</b>	<b>\$ (11,557,848)</b>

### 6 Securities Lending

To generate additional income, the Fund may lend its securities pursuant to a securities lending agency agreement with State Street Bank and Trust Company (SSBT), the securities lending agent. Security loans are subject to termination by the Fund at any time and, therefore, are not considered illiquid investments. The Fund requires that the loan be continuously collateralized by either cash or securities in an amount at least equal to the market value of the securities on loan. The market value of securities loaned is determined daily and any additional required collateral is delivered to the Fund on the next business day. Cash collateral is generally invested in a money market fund registered under the 1940 Act that is managed by an affiliate of SSBT. Any gain or loss in the market price of the loaned securities that might occur and any interest earned or dividends declared during the term of the loan would accrue to the account of the Fund. Income earned on the investment of collateral, net of broker rebates and other expenses incurred by the securities lending agent, is split between the Fund and the securities lending agent based on agreed upon contractual terms. Non-cash collateral, if any, is held by the lending agent on behalf of the Fund and cannot be sold or re-pledged by the Fund; accordingly, such collateral is not reflected in the Statement of Assets and Liabilities.

The risks associated with lending portfolio securities include, but are not limited to, possible delays in receiving additional collateral or in the recovery of the loaned securities, possible loss of rights to the collateral should the borrower fail financially, as well as risk of loss in the value of the collateral or the value of the investments made with the collateral. The securities lending agent shall indemnify the Fund in the case of default of any securities borrower.

At December 31, 2023, the total value of securities on loan, including accrued interest, was \$2,794,667 and the total value of collateral received was \$2,875,251, comprised of cash of \$1,273,840 and U.S. government and/or agencies securities of \$1,601,411.

### Notes to Financial Statements — continued

The following table provides a breakdown of securities lending transactions accounted for as secured borrowings, the obligations by class of collateral pledged, and the remaining contractual maturity of those transactions as of December 31, 2023.

	Remaining Contractual Maturity of the Transactions				
	Overnight and Continuous	<30 days	30 to 90 days	>90 days	Total
Corporate Bonds	\$ 341,577	\$ —	\$ —	\$ —	\$ 341,577
U.S. Government Agencies and Instrumentalities	621,290	—	—	—	621,290

<b>Total</b>	<b>\$1,273,840</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$ —</b>	<b>\$1,273,840</b>

The carrying amount of the liability for deposits for securities loaned at December 31, 2023 approximated its fair value. If measured at fair value, such liability would have been considered as Level 2 in the fair value hierarchy (see Note 1A) at December 31, 2023.

#### 7 Line of Credit

The Fund participates with other portfolios and funds managed by EVM and its affiliates, including CRM, in a \$650 million unsecured revolving line of credit agreement with a group of banks, which is in effect through October 22, 2024. In connection with the renewal of the agreement on October 24, 2023, the borrowing limit was decreased from \$725 million. Borrowings are made by the Fund solely for temporary purposes related to redemptions and other short-term cash needs. Interest is charged to the Fund based on its borrowings at an amount above either the Secured Overnight Financing Rate (SOFR) or Federal Funds rate. In addition, a fee computed at an annual rate of 0.15% on the daily unused portion of the line of credit is allocated among the participating portfolios and funds at the end of each quarter. In connection with the renewal of the agreement in October 2023, an arrangement fee of \$150,000 was incurred that was allocated to the participating portfolios and funds. Because the line of credit is not available exclusively to the Fund, it may be unable to borrow some or all of its requested amounts at any particular time.

The Fund had no borrowings pursuant to its line of credit at December 31, 2023.

#### 8 Affiliated Investments

At December 31, 2023, the value of the Fund's investment in affiliated issuers and in funds that may be deemed to be affiliated was \$1,488,518, which represents 1.3% of the Fund's net assets. Transactions in such investments by the Fund for the year ended December 31, 2023 were as follows:

Name	Value, beginning of period	Purchases	Sales proceeds	Net realized gain (loss)	Change in unrealized appreciation (depreciation)	Value, end of period	Interest/Dividend income	Principal amount/Shares, end of period
<b>Corporate Bonds</b>								
Morgan Stanley, 5.00%, 11/24/25	\$ 149,714	\$ —	\$ —	\$ —	\$ 653	\$ 149,878	\$ 7,011	\$ 150,000

<b>Total</b>				<b>\$ —</b>	<b>\$ 653</b>	<b>\$1,488,518</b>	<b>\$66,750</b>	

#### 9 Capital Shares

The Corporation may issue its shares in one or more series (such as the Fund). The authorized shares of the Fund consist of 20,000,000 common shares, \$0.10 par value, for each Class.

### Report of Independent Registered Public Accounting Firm

---

To the Board of Directors of Calvert Variable Products, Inc. and Shareholders of Calvert VP Investment Grade Bond Index Portfolio:

#### Opinion on the Financial Statements and Financial Highlights

We have audited the accompanying statement of assets and liabilities of Calvert VP Investment Grade Bond Index Portfolio (the "Fund") (one of the funds constituting Calvert Variable Products, Inc.), including the schedule of investments, as of December 31, 2023, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the three years in the period then ended, and the related notes. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2023, and the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the three years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. The financial highlights for the years ended December 31, 2020 and 2019 were audited by other auditors whose report, dated February 18, 2021, expressed an unqualified opinion on those financial highlights.

#### Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

### Management and Organization

**Fund Management.** The Directors of Calvert Variable Products, Inc. (the Corporation) are responsible for the overall management and supervision of the affairs of the Corporation. The Board members and officers of the Corporation are listed below. Except as indicated, each individual has held the office shown or other offices in the same company for the last five years. Board members hold indefinite terms of office. Each Board member holds office until his or her successor is elected and qualified, or until his or her earlier death, resignation, retirement, removal or disqualification. Under the terms of the Fund's current Board member retirement policy, an Independent Board member must retire at the end of the calendar year in which he or she turns 75. However, if such retirement would cause the Fund to be out of compliance with Section 16 of the 1940 Act or any other regulations or guidance of the SEC, then such retirement will not become effective until such time as action has been taken for the Fund to be in compliance therewith. The "noninterested Directors" consist of those Directors who are not "interested persons" of the Corporation, as that term is defined under the 1940 Act. The business address of each Board member and the Chief Compliance Officer is 2050 M Street NW, Washington, DC 20036 and the business address of the Secretary, Vice President and Chief Legal Officer and the Treasurer is Two International Place, Boston, Massachusetts 02110. As used below, "CRM" refers to Calvert Research and Management and "Eaton Vance" refers to Eaton Vance Management. Each Director oversees 46 funds in the Calvert fund complex. Each of Eaton Vance and CRM are indirect, wholly owned subsidiaries of Morgan Stanley. Each officer affiliated with CRM may hold a position with other CRM affiliates that is comparable to his or her position with CRM listed below.

## IMPORTANT NOTICES

---

**Delivery of Shareholder Documents.** The Securities and Exchange Commission (SEC) permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called “householding” and it helps eliminate duplicate mailings to shareholders. *Calvert funds, or your financial intermediary, may household the mailing of your documents indefinitely unless you instruct Calvert funds, or your financial intermediary, otherwise.* If you would prefer that your Calvert fund documents not be househanded, please contact Calvert funds at 1-800-368-2745, or contact your financial intermediary. Your instructions that householding not apply to delivery of your Calvert fund documents will typically be effective within 30 days of receipt by Calvert funds or your financial intermediary.

**Portfolio Holdings.** Each Calvert fund files a schedule of portfolio holdings on Part F to Form N-PORT with the SEC. Certain information filed on Form N-PORT may be viewed on the Calvert website at [www.calvert.com](http://www.calvert.com), by calling Calvert at 1-800-368-2745 or in the EDGAR database on the SEC’s website at [www.sec.gov](http://www.sec.gov).

**Proxy Voting.** The Proxy Voting Guidelines that each Calvert fund uses to determine how to vote proxies relating to portfolio securities is provided as an Appendix to the fund’s Statement of Additional Information. The Statement of Additional Information can be obtained free of charge by calling the Calvert funds at 1-800-368-2745, by visiting the Calvert funds’ website at [www.calvert.com](http://www.calvert.com) or visiting the SEC’s website at [www.sec.gov](http://www.sec.gov). Information regarding how a Calvert fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available by calling Calvert funds, by visiting the Calvert funds’ website at [www.calvert.com](http://www.calvert.com) or by visiting the SEC’s website at [www.sec.gov](http://www.sec.gov).

**Tailored Shareholder Reports.** Effective January 24, 2023, the SEC adopted rule and form amendments to require open-end mutual funds and ETFs to transmit concise and visually engaging streamlined annual and semiannual reports to shareholders that highlight key information. Other information, including financial statements, will no longer appear in a streamlined shareholder report but must be available online, delivered free of charge upon request, and filed on a semiannual basis on Form N-CSR. The rule and form amendments have a compliance date of July 24, 2024. At this time, management is evaluating the impact of these amendments on the shareholder reports for the Calvert Funds.
